## Interested in a Design Career?

Design is a fundamental human activity but a comparatively new profession. Today, Design is critical to the development of the economic and inclusive social life of human societies. Design activity encompasses innovation, function, and value for all stakeholders involved in the offering of products and services. It is a human-centered profession, increasingly amalgamating technology. We at the Institute of Design, SAGE University, welcome interested and committed young candidates who wish to build a professional career in Design.

## B Des Apparel and Fashion Design

The Fashion Design programme at SID provides students with a comprehensive vision where students gain practical hands-on experience in their course enabling them to confidently enter career paths in fashion design, pattern making, garment manufacturing, craft studies, fashion merchandising and so on.

This is overseen by a team of professional faculty who instruct, inspire, and mentor students utilizing their technical and design expertise while also encouraging the development of individual style

This has ensured that SID holds a coveted position among the top fashion design schools in the country.

## B Des Interior and Space Planning

This programme trains students to create perfect living, working, and commercial spaces through a deep understanding of the multiple variables of interior design like construction, material, space planning, and more. The programme includes courses such as Architecture History and Theory, Construction Methods, Materials, and Processes. Students are taught to meticulously assess the client's needs and goals, to adhere to the space's safety requirements, and to employ appropriate techniques to create functional and aesthetic interiors that best reflect the user's taste.

The programme provides 100% internship opportunities, which are supported by a strong placement cell, ensuring bright careers. For a more comprehensive learning experience, the programme is supplemented with visits to nationally renowned industries and institutes, national study tours, and rural immersion programmes.

## How are we Unique?

- Dynamic curriculum
- Faculty with diverse backgrounds
- Outcome based education
- Collaborative learning in teams
- Rigorous Industry internships and field work
- Project based learning with integration of industry ready technologies
- Learning and evaluation through project work, presentation, and feedback
- Professional inputs by industry experts and senior design practitioners
