JULY MONTH EDITION - www.sageuniversity.in

LEADER OF CHANGE

*I*t is an extremely cock-a-hoop moment for the entire SAGE Group. The well known and popularly established 'The Times Group' felicitated our Hon'ble Chancellor Er. Sanjeev Agrawal along with his son-in-law Mr. Karan Khurana for their success and valuable contribution towards the Indian Society on 24th June 2022 at a private hotel in Bhopal.

On this prestigious occasion, the Chief Guest of the program, Prahlad Singh Patel, Minister of State for Food Processing Industries and Jal Shakti, Government of India, unveiled the coffee table book 'ET Leaders of Change', to commemorate the voyage of our respected CMD Sir. The milestones, he personally has travelled contained bundles of obstacles and challenges in life but the strength and self confidence of a person will take him/ her to the next level of time and effort.

His ideologies of bringing continuous reforms for the betterment of public is a habit. More to more, his thoughts reflect the caring synergy in a way that would be newly made and beneficial for the maximum number of people in the country. The tightly packed disciplined life exhibits the punctuality and sincerity towards his time and opinions value abundantly to him. Everyday is a new opportunity for him and every personal identity is a knowledgeable form of resource.

Thus, he is known for Leader of Change who has taken a pledge to make improvements in the society at large. His contribution in various sectors is infinite and precious for many people.

THE ROLE MODEL - THE MENTOR

Our millennial woman is a true inspiration. We are blessed to have you, Dear Ma'am. Recently, our respected Executive Director, SUI & SUB - Ms. Sakshi Agrawal felicitated by the Hon'ble Higher Education Minister - Shri Mohan Yadav for her valuable contribution to the education sector. She is a time-keeper and optimistic person. Her working style denotes the significance of the task in a much better way. She is prompt in taking decisions. Her passion for educational development is energizing, and it can help push us through the

more practical and realistic moments. She truly feels what she is doing. She deals with a sense of optimism and a belief in herself. She is a treasure of knowledge and experience as she is handling

Hon'ble Higher Education Minister, Shri Mohan Yadav Ji facilitating Ms. Sakshi Agrawal, ED, The Sage Group for Sage University- Indore and Bhopal's valuable contribution in the education sector Congratulations to all

such a big responsibility tremendously well. Her attitude to seeing things is always positive and brings out the best. She has been a wonderful motivational orator to all of us every time. Her ideas look for the pearl in the ocean where others focus on the problem, she focuses on the solution. She is trying her best to acquire the most innovative techniques through which our India and its students get a better educational model and learning scene. We often see these approaches in her way of working and executing pre-planned or post-planned strategies. Her thinking style develops a sense of creativity and persuasion in the hearts of her co-workers. She sets her behavior and mindset in such a way that she keeps herself cool and calm in dealing with both toxic and non-toxic elements in a very beautiful way. She is the most deserving person for this award and appreciation. SAGE University, Indore, and its students express their heartfelt wishes.

ASPIRE TO INSPIRE @ THE WEEK - THE SAGE GROUP

Lift your hands and join in the celebration journey of SAGE University, Indore as the world is recognizing the efforts and hardships as a statue of inspiration. It was a euphoric moment for The SAGE Group that this month, THE WEEK, Indian News Magazine in its Mid-Year Special publication mention our success model titled SAGE UNIVERSITY- Achieving Excellence together! The magazine disclosed how we are participating in resolving global issues. It appreciated the believing power of our hon'ble Chancellor, SAGE University Bhopal & Indore - Er. Sanjeev Agrawal is deliberately contributing to the nation's wealth and health where we are not lacking ourselves behind in developing underprivileged places or people by taking every step towards higher and higher. He personally gives much importance to Indian culture and values which should be involved sufficiently in the modern educational world and system. SAGE University promises to serve highly intellectual minds in an emerging platform where students from diverse backgrounds groom themselves in such a manner that will be beneficial to their careers. We, as the maker, integrate the quality educational aperture with life skills thus students experience the best possible resources and pre-determined techniques that the world will be going to apply with them. At SAGE University, students get thrilled with Modern Education, the complete latest and most contemporary version of education in the 21st century. We, as an educator group, don't just

only focus on prominent academic disciplines of Management, Engineering, agriculture, Pharmacy, Journalism, Design, and Law Arts but we also aim to foster Critical Thinking, Life Skills, Value Education, Soft Skills, Interview Preparation, Analytical Skills and Decision-making Skills in students. Here, we establish a link with students to make the optimum utilization of the latest technology such as mobile applications, audio and video platforms like YouTube, Podcasts, E-books, Movies, etc. to educate learners and make the learning process more engaging and interesting. The

magazine talked about various outstanding services we are rendering at SAGE with a few glimpses such as Industrial-Training Programmes. At SAGE, students are able to get assistance from a cell called Training Placement and Industrial Interaction Cell (TPIIC) which works in the favor of students and delivers their services in the form of an enormous training session during the course including value-added course and internet infographics as well to cater our students well equipped and compatible at National

and International grounds. It also covered the major and minor awards and recognition grabbed by SAGE University over the years by providing Outcome-Based Quality Education and became the pioneer in the sector. From tip to toe, the overall development of a student-focused on both- Successful Placements and Internship Opportunities.

From the Desk of Pro-Chancellor

'The opposite of failure is success and you never know how near you are.' A man whose continuous actions will provide the way of a new thinking style. We are talking about the most disciplined ever man with us lively and openly while sharing his ideas. His grace is even sufficient to embrace or ignite the power engine of oneself. In a day, he is capable to work 48 hours - doubling the efforts in every task. The disciplined life, he is following is truly worth knowing. He guides his surrounding people in such a way that the person inculcates positive sentiments and feelings. He neither forgets nor misses a chance to appreciate the hardships and determination of his army. He is also a visionary leader who creates ideas for the next generations in such a way that leads toward the betterment of society and the nation. The way he takes his army along with himself by holding the hands of everyone is remarkable in itself. The lesson to be taken from himself is how to be passionate extremely about your dream and goal. From his expertise in the arts to the sciences, he suggested that those who have a capacity to think originally have a greater chance of success. Whenever faced with an obstacle to our goal, don't just go through a checklist of ways to solve the problem. Try thinking of the problem - and its possible solutions - in a way few, if any, ever have. His thought-invoking pattern will take our strategies to an upward level. He often says that most people do procrastinate and everyone has a vice or two, however minor. But those who are continually successful never let distractions

overtake them. Instead, they have the discipline to force themselves to keep at it, even when they feel the urge to do something less important. He enforces people to work in a team as a member in favor, not as an actor against the wall which preserves the culture of together within us and our organization. Another attribute to be taken from him is our commitment to learning, we must often have an amazingly detailed knowledge of our field. That's because a good portion of success is understanding the ins and outs of what you're trying to do and the world at large.

www.sageuniversity.in

The Environment is one of the most important tools for our survival on planet Earth. The environment nurtures us and helps us survive. Biotic components like plants and animals are also important survival tools. Components of the environment are dependent on each other in a web of relations known as the ecological web. It is necessary to maintain this web in balance because if one component collapses then the entire web will crumble destroying all life forms. This is why we must choose to work towards preserving the Environment and undoing the damage we did. The main purpose of World Environment Day is to spread awareness about the current conditions of the Environment. Sage University Indore; the Department of Applied Science has organized a competition on " World Environmental Day " on 7th June 2022. Students actively participated in the competition of poetry writing, essay writing, poster making, slogan writing, fancy dress, exhibition, and best out of waste. The advisor of the event was Dr. Akhilesh Upadhyay HOI, SIRT; Prof. Sonal Tripathi, as well as the convenor, was Dr. Varsha Joshi whereas Co-convenor was Dr. Nitin Kumar Carpenter and Prof. Siddharth Nath. Many congratulations to the Department of Applied Science, SUI for the constant effort they made to explain the relevance of the environment from the eye of the youth.

Yoga for Humanity in SAGE Style

Yoga - Inhale the Future, Exhale the Past. 21st June is celebrated as International Yoga Day every year since 2015. Our University believes in root values and cultural importance. It is not a one-day process here. Yoga is also highly instrumental in building strength and resilience and is a fantastic tool for stress management. We are practicing the same for so long. After having a tough time due to bad weather, we managed well to continue our tradition by doing a huge Yoga Event in the central lush green arena where higher officials, HOIs, HODs, faculty and staff members, along with students had performed Yoga practices. The ancient practice of Yoga that has stemmed from Indian culture, is widely known to balance the body and mind while boosting both the mental and social being of an individual. Yoga emphasizes the values of

mindfulness, moderation, discipline, and perseverance. We had witnessed the blissful presence of our Hon'ble Dr. Ankur Arun Kulkarni - Vice-Chancellor, SUI, our Respected Dr. Manish Choudhary - Registrar, SUI, Dr. Pratik Jain - Head, TPIIC, SUI along with our Master International Expert Trainer Mrs. Sarika Sharma - Academic Counsellor, CAD, and the diverse audience in the form of attentive and sincere participants. University students have shown a great interest in performing and making this event a grand and successful one.

The rapid technological advancement has led the entire world to shift towards the digital domain. However, this transition has also resulted in the emergence of cybercrimes and security breach incidents that threatens the privacy and security of the users. Therefore, SUI aims at examining the use of digital forensics in countering cybercrimes, which has been a critical breakthrough in cybersecurity. To explore chapter the most recent trends in digital forensics, which include cloud forensics, social media forensics, and IoT forensics, advanced technologies are helping the cybersecurity professionals to use the digital traces left by the data storage and processing to keep data safe while identifying the cybercriminals. To link your knowledge with the cybersecurity Sage University Indore, Institute of Advanced Computing organized a webinar on "Take off your career with Cyber Security and Digital Forensics" in association with Cailfor Consulting Pvt. Ltd.Pune. The webinar was placed on 23rd June 2022 where the speaker Mr. Dhiraj Singh; Cyber Security Analyst, Cailfor Quick Heal Academy addressed the student's unexplored areas of Cyber Security and Digital Forensic Science. The convenor of the event was Dr. Manoj Kumar Ramaiya HOD, IAC and the coordinator was Dr. he and Shrivastav. We congratulate the Institute of Advanced Computing for successfully. conducting the webinar on Cyber Security and Digital Forensic Science.

Blood Donation Campaign @SUI

Donate blood, saves lives. Blood is the most precious gift that anyone can give to another person - the gift of life. On the healthy occasion of World Blood Donor Day, this year our university has taken an initiative to serve our contributions to the society members. We came up with the idea of organizing A Mega Blood Donation Campaign on our university campus. The information regarding the same event was delivered to all the concerned people prior to the date and a feeling of "Giving is Receiving" was generated and made the people aware of the significance of this good deed. There were 102 candidates who successfully participated and donate their blood on this day in the warmest presence of respected Dr. Manish Choudhary - Registrar, SUI, Rishikant Neema - Senior Administrator, SUI, and Dr. Narendra Verma along with his team were there for the participants especially. The units of blood collected by the team will be served to MYH Blood Bank and MGM Medical College by Transfusion Medicine Department. This lifesaving care starts with one person making a generous donation. The need for blood is constant. This campaign gave a positive image to society that how "Raktveers" dedicated their actions in the favour of society and nation. The blood will be taken for utilization by the Doctors and Nurses in the treatment of Thalassemia and other needy patients in hospitals.

Home Sweet Home at Mega Property Expo – 2k22

It's a place that provides us with a centering - a place from which we leave each morning and to which we return each evening. A safe and good home reduces the risk of developing mental stress. Our SAGE Group has organized a Mega Real Estate Event in the town (Lake City of MP-Bhopal) for all the interested

stakeholders wishing to buy their dream homes, flats, or commercial spaces. Our Hon'ble Chancellor, The SAGE Group - Er. Sanjeev Agrawal inaugurated this massive event along with the positivity of Mr. Vishnu Dutt Sharma, Chairman, BJP-MP, Mr. Binod Kumar, CGM, SBI, and Mr. Sumit Modi, COO, Dainik Bhaskar Group. It was a Huge Property Expo - in 2022 where we welcome all property seekers to visit stall no.1 Agrawal Construction Co. for all commercial and residential solutions at all prime locations in Bhopal, the Capital city of Madhya Pradesh. Here, the person feels like it's a paradise on the Earth. A place where your search for a beautiful house end. A house is not only a mere physical structure but also a symbol of power, love, care, memories, and a host of other things that come along with it. We delightfully accustom a wish to explore the residential space according to ourselves.

Er. Sanjeev Agrawal CMD The SAGE group at the inauguration ceremony of Dainik Bhaskar Mega Property Expo with Mr Vishnu Dutt Sharma, Chairman Madhya Pradesh BJP, Mr. Binod Kumar CGM SBI Bhopal and Sumit Modi - COO, Dainik Bhaskar

Student's Blog | FEW ROADS DIVERGED

The tenth was the most fortunate thing that ever occurred to me. The enjoyment, The Life and also the sweet study tension which was not as aggravating as I was about to witness in future. The tenth is the standard when you are dribbled into concern, but then again you feel immensely seen. There is this thing in the tenth standard where you retain to determine what your future will be like, I mean just several 16 year olds seizing lifelong decisions!! pretty lame, but that's a fact! the subjects you take in 11th are somehow the base of your career, of course, you can change it later but still, it's integral and crucial. In this particular class, you already have the concern of slashing a fair percentage, and you can't just concentrate what after this? because there is a lot on your plate already. Then the gigantic dilemma of what to select? and what not to select? arises, but this happens after giving the tenth board examination, at least it happened to me! where the anxiety of obtaining a decent percentage was switched to obtaining a decent subject. It was a bit evident that I wish to take commerce but still...., there exists a vast perspective into which you are required to look. Then begins the mind-blowing research phase! No, no literally - Mind-blowing, I got a headache! For considerable weeks, I think I sound to call it migraine instead.

Whatever! so the aspect that, you need to discover yourself!, you need to recognize yourself! and then suddenly, I realized that I know nothing about myself. "Happy realisation", and this voyage of self-discovery roots, and you are so eager to learn about your interests, appreciations, specialities and the most essential, how you prefer to behold yourself in the future? When you uncover some stuff about yourself, you are so overwhelmed and delighted, but then also folks come to you with their suggestions. For me, it was commerce stream but furthermore, everyone came and said math has a more tremendous scope, or take science it's more Academic in nature, but in that specific moment, I was required to trust myself, my instincts and needed to recall that overwhelming sentiment I got! You need to stand for yourself and select what you desire! Irrespective of the things you were spoken. Because at last it was my decision, about my life, and I had to make sure it was mine only. The feeling of deciding what you wished is trust me! much more angelic. The abundance of risks are entangled though, because from now on, you are accountable for your career and everything that is going to transpire in coming, so in my viewpoint, research should be effective and there should be no scope of regrets in the future. Hopefully, I am not having any such regrets!

Today, researchers increasingly use computer-assisted data analysis packages to assist them. The advantage of the software is that it allows for more efficient and effective work processes. It saves your time and can help you to gain deeper insights into your data that you might have missed otherwise. Qualitative data analysis (QDA) software is used in many academic fields, such as sociology, psychology, political science, medicine, and educational science, and it is also a popular tool for businesses and market researchers. Sage University Indore organized an international conference on Data Analytics and Computational applications (**IDCAC-22**) from 1st July to 2nd July 2022. The theme of the conference was Data Sciences and Engineering, Computing Technologies Algorithms, Computational Intelligence Data Mining Neural Network, Intelligent Control Systems, and Optimization Data-Based Control Robotics and Automation Autonomous Agents Cognitive Approach. Scholars from various countries accompanied the conference and enlightened students with new learning and innovative techniques. We sincerely thank Sage University Indore for benefiting the students with outstanding exposure.

Career @ Artificial Intelligence

Artificial Intelligence, Machine Learning, and Deep Learning are popular buzzwords that everyone seems to use nowadays

But still, there is a big misconception among many people about the meaning of these terms. Artificial intelligence is the ability of a digital computer or computer-controlled robot to perform tasks commonly associated with intelligent beings. A large number of companies claim nowadays to incorporate some kind of "Artificial Intelligence" (AI) in their applications or services. But artificial intelligence is only a broader term that describes applications when a machine mimics "cognitive" functions that humans associate with other human minds, such as "learning" and "problem-solving". Whereas Machine Learning incorporates "classical" algorithms for various kinds of tasks such as clustering, regression, or classification. Machine Learning algorithms must be trained on data. The more data you provide to your algorithm, the better it gets. To make students aware of the technical terms with their usage Institute of Advanced Computing organized a webinar on "Take off your career with Artificial Intelligence, Machine learning and Data Science. The webinar was conducted on 16th June 2022. In the webinar, eminent speakers were Mr. Vishal Jain CEO and Founder of Samatrix Consulting Pvt. Ltd., And Mr. Sunny Pathak; Co-Founder of Samatrix Consulting Pvt. Ltd. The coordinator of the event was Dr. Hemang Shrivastav; Professor IAC SUI and the convenor was Dr. Manoj Kumar Ramaiya HOD, IAC, SUI. Many congratulations to the Department of advanced computing for successfully conducting the webinar.

Dream of a father accomplished by his son - Congrats M.P.

SAGE UNIVERSITY INDORE

The endeavours & commitment for a long time are finally paid off!

Congratulations

MP Cricket Team On The Ranji Trophy Triumph.

CHAMPIONS

The wait is over after 66 years – Wishing enormous congratulations to Madhya Pradesh Ranji Team. The hardships, dedication, persuasion, and practice are all worth it when the white jersey coloured with the winning rainbows. It is the time for celebrations for the public of Madhya Pradesh as our Ranji Team won the championship after long back. With our determined mind, we defeated the 41st times' Winner – Mumbai Team along with a significant difference. Man of the match was awarded to an Indore Young blood, Shubham Sharma, a son of a Government School Teacher, and three more charming stars belonging to our mega city. The SAGE Group congratulates the whole team and its relational bodies on the wonderful winning and shares our best wishes for their bright and colourful future endeavors.

Champion of SUI @ 2022

Learning is not attained by chance; it must be sought for with ardour and diligence. Because aiming for success, not perfection. Never give up your right to be wrong, because then you will lose the ability to learn new things and move forward with your life. Needless to say, journalism has emerged as an extremely popular career option amongst millennials and GenZ such as you. And the common route to enter this field is often through a degree of journalism and mass communication (J&MC). This qualification not just enhances your chances of getting a ticket to the newsroom but can also be useful for other fields such as communications, marketing, education and entertainment. Sage University Indore congratulates hardworking Ms. Sudhi Pandey, VI sem, BAJMC for scoring and achieving 10, pointers in exams. We appreciate the dedication of Ms. Sudhi Pandey and wish her best of luck for her future.

Fathers Day @ 2022

“A father is neither an anchor to hold us back nor a sail to take us there, but a guiding light whose love shows us the way.” Father's Day acknowledges and celebrates the contribution of fathers to their own families and society at large. On this day, children get a chance to appreciate their fathers and father figures -all the people who have played a vital role in their lives. It can be emotionally, mentally, or even financially. There will always be a few people who dare to love what is untamed inside us. One of those men is my father. Father's Day is celebrated across the world to realize and honor the contribution of fathers to society. It is a day that celebrates the fatherhood, paternal bonds, and the efforts of male parents towards their family and society. The day is meant to recall, recognize and remember the endless efforts, initiatives, and contributions of all the fathers around us. Father's Day is an occasion to honor all the fatherly figures like grandfathers, uncles, and even big brothers. On the blissful occasion of fathers day, SUI wishes you that may the generation of youth understands that the significance of a father is beyond words as he is the person who works tirelessly to fulfill the requirements of his family. To honor the contribution of all such fathers and fatherly figures and to celebrate the paternal bonding, a special day is observed every year as Father's Day.

VAC @ Cascading Style Sheet

Cascading Style Sheets is a style sheet language used for describing the presentation of a document written in a markup language such as HTML or XML.

CSS describes how HTML elements are to be displayed on the screen, on paper, or in other media. CSS saves a lot of work. It can control the layout of multiple web pages all at once. External style sheets are stored in CSS files. CSS is used to define styles for your web pages, including the design, layout, and variations in display for different devices and screen sizes. Sage University Indore; Department of Computer Science Engineering and Information Technology, IET has organized a Two-day Value Added course on Cascading Style Sheet. Prof. Neha Bharani, Assistant Professor CSE & IT was the trainer of VAC of Cascading Style. The course was conducted on 21st and 22nd June 2022. The coordinator of the event was Prof. Shubha Dubey, Asst. Prof. CSE & IT and the convenor was Dr. Hare Ram Shah, HOD, CSE & IT. We are the thanks to the delegates of Sage University Indore and the department of advanced computing for bringing forward the need for cascading style sheets.

SUI @ Fashion Show

As fashion enters a new decade, the industry is questioning if the fashion show format still works. Because fashion show is an event put on by a fashion designer to showcase their upcoming line of clothing and/or accessories during Fashion Week. Fashion shows debut every season, particularly the Spring/Summer and Fall/Winter seasons. Apparel is adorned on the catwalk using numerous forms of lighting and special outcomes. The order in which each model walks out, wearing a specific outfit, is usually planned by the declaration that the designer wants to make about their collection. Occasionally, fashion shows take the form of installations, where the models are static, standing, or sitting in a constructed environment. SUI Institute of Design conducted a fashion show on 10th June 2022. The charge of an adorable event was under the Institute of Design. A well-known fashion show is an integral part of Graduating Project. So to keep it coordinated the theme of the show was Indo-Western Apparel. Interestingly the attire for the evening was prepared by pre-finals and final year students. Heartily congratulations to the Institute of Design for conducting such a mesmerizing event. Also, SUI appreciates the art and hard final-year final-year students.

**Words may show
a man's wit,
but actions his
meaning.**

– Benjamin Franklin

SUI has witnessed and welcomed a Man of action, a Proud Indian Actor, Martial Artist, Producer, Stuntman, Action Choreographer and many more qualities he possesses. His name is Vidyut Jammwal. We welcomed him on 28th June 2022 to our lush green campus along with his co-star Ms. Shivaleeka Oberoi and Radio Rj from 92.7 BigFM to reenergize the students with their style, passion, thoughts, and learning signs. It is a moment for SUI to see the powerful presence of a celebrity and turns it out into an indication of worth knowing how someone with his/her hard work can achieve his/her dreams in life. He will be a real-life inspiration for all of us that yes, it is magic of consistency and discipline we can follow in our lives. Sage University, Indore was glad while invites such personalities on the campus to have an interaction with students. This will bring a great enthusiasm in students towards their goals or ambition that we should not change our aims rather, we may change our methods or way to reach the same. Students, participants, faculty, staff members, management people, radio RJs, guests, our Hon'ble Vice-Chancellor Dr. Ankur Arun Kulkarni, our esteemed Registrar Dr. Manish Choudhary, and our respected Executive Director Ms. Sakshi Agrawal including all were super-duper excited and delighted to attend this grand event at University Campus.
