## **Business Leadership Conclave 2022 - ZEE MPCG**

**CMD of The SAGE Group Er. Sanjeev Agrawal got bestowed for his valuable contribution in the Business World by the Honorable Union Minister for Information & Broadcasting, GOI Shri Anurag Thakur at Business Leadership Conclave organized by Zee Madhya Pradesh & Chattisgarh.**

In business, leadership is defined as a company's management's ability to establish and achieve hard goals, take quick and decisive action, when necessary, exceed the competition, and motivate people to perform at their best. Leadership is the most important aspect in ensuring that everything runs well; without it, all other corporate resources are rendered ineffective. Business leaders that are switched on are aware of their workers' problems and keep up with current advancements in leadership theory and practice in order to create more successful working environments. In association with the most grossed television channel Zee MPCG, a business conclave was organized graciously on 25th May 2022 where the Chief Guest was Shri Anurag Thakur, Union Minister of Information & Broadcasting and Youth Affairs & Sports, Government of India, and the Special Guest was our respected CMD, The Sage Group, Er. Sanjeev Agrawal, Chancellor- Sage University. During the live conclave, he shared his on upcoming opportunities in trade and industry. He emphasized on new possibilities and new challenges, there is a need among youngsters and adults to learn how to cross successfully these obstacles ready in the future for all of us. His words of wisdom motivate everyone who was listening to him at the same moment. He was cheering the energy of youth to inspire and search for their passion and talents where they can optimize their wording style. At the end of the program, our CMD, The SAGE Group, Er. Sanjeev Agrawal got felicitated for his precious contribution to the Business World by the Honorable Union Minister for Information & Broadcasting, GOI-Shri Anurag Thakur at Business Leadership Conclave 2022. May his charm be always as lightening as ever and his contribution serves as a beneficial platform to every needer.

## SAGE CAREER DAY 2022

A Beautiful Blast from the hardships of Past

Choosing a career is one of the most important decisions we will make in life. It's about so much more than deciding what we will do to make a living. To start with, think about the amount of time we spend at work. We are on the job approximately 71% of every year. Over our lifetimes most of us spend working, from the beginning of our careers until retirement. The importance of selecting a career with which we are satisfied cannot be overemphasized. While some people are lucky enough to just know what they want to do and end up in satisfying careers without giving it much thought, most of us are not. Many people don't put enough effort into choosing occupations or pick them for the wrong reasons. Maybe they choose careers that seem secure or pay well. They then end up unhappy. The best way to make sure that doesn't happen to you is to make a well-thought-out decision. On this month's 20th, on a pious Friday, The SAGE group has organized SAGE Career Day for recognising the accomplishments of the group and also to create future aspirations for an upcoming generation where we can deliver the outstanding package and a successful career to all students and stakeholders. Placements are a testament to the student's hard work. The SAGE Group - a pioneer name in education since 2003, today celebrated SAGE Career Day. A grand celebration of the group placements. Around 370+ companies came for campus placement & 2200 students got placed in top-notch companies in India and abroad. The grace of the program was embraced by the soulful presence of Madhya Pradesh Chief Minister Sh. Shivraj Singh Chauhan Ji, MP State Education Minister Dr. Mohan Yadav, CMD - The SAGE Group, Chancellor Sage University Er. Sanjeev Agrawal, and Executive Director, The SAGE Group Ar. Shivani Agrawal and many more came to bestow the stalwarts of the SAGE institutions. The SAGE Group has continued working in the direction of student placements over years. The SAGE Group paid a tribute and showed the best moment of gratitude to the students' community, parents' fraternity, and our believers and contributors who have kept their strong-hearted faith in us. Sage Family has built trust over the years in the central India region. Take one of the life turning decisions of life by giving us a chance to serve the best within us.

### Glimpses of SAGE CAREER DAY

## The SAGE Group Adopted 10 Anganwadi

It is a proud moment to share that our SAGE Group has adopted and taken up the responsibilities of 10 Courtyard Shelters (Anganwadi) in order to bring a faithful change that emerges well among the public. This reform will bring basic amenities to the people of Anganwadi and its beneficiaries. The important services provided to the Anganwadi workers and its stakeholders are - Primary Health Check-ups and Immunization, Supplementary Nutrition, and Educating People (in particular women) about family planning, their health, and well-being. This will play an important role in the development of the people connecting to it especially children and their mothers who are completely dependent on these for their food or apparel facilities and more. It is a great commandment taken up by The Sage Group to create a new identity in shaping our India into a better place to live in. We, the Sage University, Indore are also on the same track by trying our best to give world-class quality education to our students, in this mission our whole group is participating equally and contributing to the best of their abilities. We must pave our way towards the betterment of our surroundings as well up to our capabilities and solution-oriented tactics. A typical Anganwadi center provides basic health care in a village. It is a part of the Indian public health care system. Basic health care activities include contraceptive counseling and supply, nutrition education and supplementation, as well as pre-school activities. Our Sage Group will adopt and facilitate all the needful items and products to these Courtyard Shelters where no children or mothers lack food or basic life essentials. Our Sage Group is showing community support and active participation in executing this program, conducting regular quick surveys of all families, organizing pre-school activities, providing health and nutrition education to families, especially pregnant women, motivating families to adopt family planning, educating parents about child growth and development, assisting in the implementation of education of teenage girls and parents by organizing social awareness programs, and identifying disabilities in children. We provide a significant job role to Anganwadi workers where they have the advantage over the physicians living in the same rural area, which gives them insight into the state of health in the locality and assists in identifying the cause of problems and in countering them. Our Sage Group will also help them in acquiring better social skills and can therefore more easily interact with the local people. As locals and near people, they know and are comfortable with the local language and ways, as the SAGE Group is acquainted with the people, and are trusted.

**SAGE University, Indore**  
Signed an **MOU** with **Palo Alto Networks**

**paloalto** NETWORKS

**SAGE UNIVERSITY - INDORE**

SAGE University, Indore successfully establish MOU with Palo Alto Networks Cybersecurity Academy. The Palo Alto Networks Cybersecurity Academy equips students with leading-edge cybersecurity knowledge and skills they will need to protect their digital way of life and prepare for the many unfilled jobs in cybersecurity.

[www.sageuniversity.in](http://www.sageuniversity.in)

**Bond with Paloalto**

@  
**SAGE**

Cybersecurity refers to the protection of internet-connected systems, including hardware, software, and critical data, from attack, damage, or unauthorized access. Cybersecurity protects systems and data against all kinds of digital attacks, whether they target hardware, the connections between devices, specific applications, or users. Next-gen solutions for today's challenges "PALO ALTO NETWORK". Through a global network of approved cybersecurity academies, students prepare for cybersecurity careers. They will learn cybersecurity fundamentals, network security, cloud security, and how a security operations center (SOC) works via the hands-on curriculum. SUI has successfully signed up an MOU with Palo Alto Network with leading-edge cybersecurity knowledge and skills. The growing volume and sophistication of cyber attackers and attack techniques compound the problem even further. Maintaining cybersecurity in a constantly evolving threat landscape is a challenge for all organizations. Traditional reactive approaches, in which resources were put toward protecting systems against the biggest known threats, while lesser known threats were undefended, is no longer a sufficient tactic. SUI has successfully signed up an MOU with Palo Alto Network with leading-edge cybersecurity knowledge and skills.

**From the Desk of Executive Director**

Lead, not just manage.

She, a live moral example of an optimistic leader who is not just a manager but more than that. Her sense to see things minutely gives favorable intensity to each and every person she met in her life whether rich or needy. She motivates the people surrounding her and shares the essence of learning in the atmosphere. The way she takes up the events under discussion and the way she outlooks the materialistic and non-materialistic objects can help her to categorize them very easily and in a fine manner as well. Her desires and expectations from oneself is very much clear and thoughtful. She is a learnat in her field where she has achieved an early success through his dedication and persuasion. Her selfless services towards mankind embraces her inner beauty to the rest of the world. She has tried to bring original and required reforms in the society that leads to the betterment of our society and nation.

## Happiest Birthday Ever

### Respected ED Sakshi Agrawal Ma'am

Heartily wishes to one of the strongest mentors on this wonderful day. Ma'am! You have always been so inspiring to us, and it is our pleasure and pride to be able to work with an ideal like you. A visionary leader who always sets an example of perfection. An inspirer who is the perfect assortment of a Dreamer and an Entrepreneur. A woman who is not just a director of a university but a light of guidance who is always ready to explore the new areas to cultivate and grow. Victory swings with the quality of leadership she holds within herself. Hundred of solicitors follow the path of success by seeking learning from the motivational talks she delivers. Not only this she is a symbol that stands for women's empowerment. A social activist and reformer who is exploring the knowledge globally, yet choosing to keep roots in Indian Culture and Rituals. Her contribution in the field of patents, copyrights, research and development, MOUs, and student and faculty welfare are exceptional. She always believes in ideology which goes like "Remember that not getting what you want is sometimes a wonderful stroke of luck." As a profound leaders she organizes and align people around what the team needs whereas she strongly acquire the notion that Leadership and learning are indispensable to each other." In a nutshell, she is an achiever.

**SAGE UNIVERSITY - INDORE**

**Happy Birthday**

RESPECTED ED MAM

**Ms. Sakshi Agrawal**

Having such a strong minded and influential lady among us truly is a blessing!  
Happy Birthday,  
Respected Madam!

[www.sageuniversity.in](http://www.sageuniversity.in)

## From the Desk of **Vice Chancellor**

**Dr. Prashant Jain**  
**Vice Chancellor**  
**SAGE University, Indore-Bhopal**

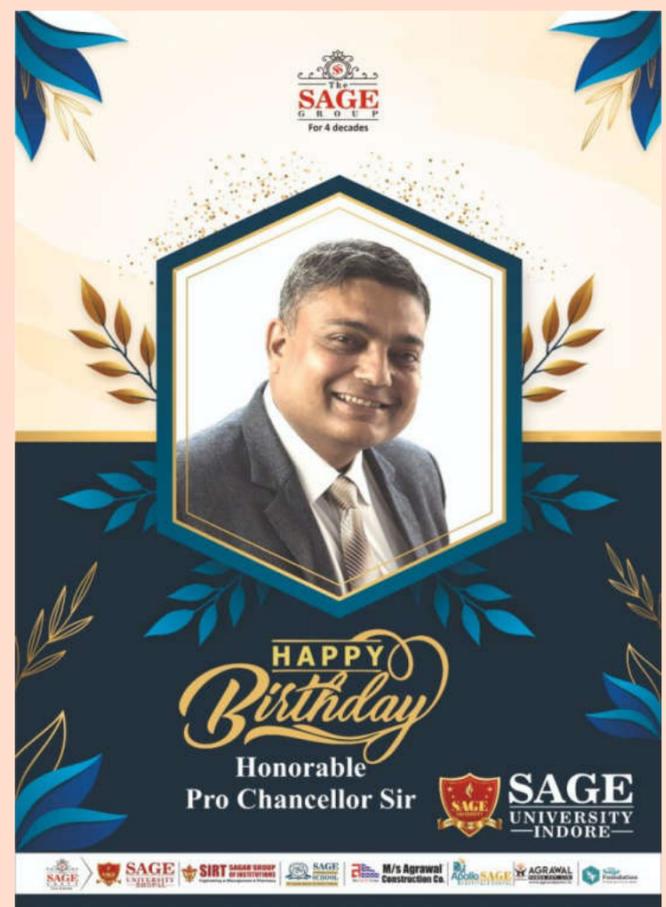

**Be generous with your smile and try not to frown.**

Smiling indicates to others that we are approachable and nice. The smile of our hon'ble Pro-Chancellor Dr. Pratik Jain is so warm, pleasant, and attractive that we can't take our eyes off for a moment. Leaders cannot be effective if their smile is not appealing. He gets extra time to get up in front of a group of people, and starts out by smiling. It will make people more likely to listen to viewers and deliberate listeners and be more open to what he has to convey to his audience and stakeholders. It can help our Pro Chancellor get what he wants without saying a word. It's a habit of our true leader that the people who smile more help those around them feel more relaxed. He indicates that he is pleased with those around him and the work that he is doing. Most often, he passes on good feelings via smiling can help others feel less pressured and relieve some of their stress, which ultimately helps productivity. He believed that relaxed people are also more open to new ideas, and are more trusting of those that have made them feel relaxed. He doesn't always have to smile just for the sake of other people he smiled so that he can also help them feel better. Smiling and laughing can help him feel happier and more positive-best life strategy ever. He says that we can often trick ourselves into feeling an emotion simply by mimicking the actions associated with it and this is known to everyone that, a happy leader is a good leader. He always wants to have a positive culture in the workplace which is always good. He personally observed that not only does it make for more efficient and more in sync workers, but it also makes people happier with their work situation and their leadership. He thinks that just the simple act of smiling can leave people feeling happier and more positive throughout the day. As a leader, he has to play a lot of roles, and one of those is attracting people, whether it be for a university, a campaign, or a project. As a leader, a quick and genuine smile brings people closer to him. At the end of the day, a smile can mean a positive and hard-worked day. His life lessons gave us the best learnings for our life practices.

## Victory at SUI @ 2022

The only one who can tell you 'You can't win' is you and you don't have to listen. Because one man practicing sportsmanship is far better than 50 preaching it. Sage University Indore circulates the belief that the hardest skill to acquire in the area of sport is the one where you compete all out, give it all you have, and you are still getting beat no matter what you do. When you have the killer instinct to fight through that, it is very special." We are very proud to announce that the Department of Sports received a victory again because of the tireless effort and achievement. Mr. Bhoumik Mahajan; B.Tech - EC has won a silver medal in the 100 M Intercollege Tournament 2022 organized by GSIMR college Indore, M.P. The competition was organized to not just praise the conqueror but to motivate the participant.

## International Nurses Day @ SUI

A nurse is a caregiver for patients and helps to manage physical needs, prevent illness, and treat health conditions. To do this, they need to observe and monitor the patient, recording any relevant information to aid in treatment decision-making. Throughout the treatment process, the nurse follows the progress of the patient and acts accordingly with the patient's best interests in mind. The care provided by a nurse extends beyond the administration of medications and other therapies. They are responsible for the holistic care of patients, which encompasses the psychosocial, developmental, cultural, and spiritual needs of the individual. In a similar way, our college warden madam acts as a Nurse to all the students and provides her services selflessly, and dedicates her enthusiastic feelings and sentiments. On this International Nurses Day 12th May 2022, we, the Sage University, Indore have appreciated the efforts of all the Nurses around the world and recognized the hardships of Ms. Preeti Sharma by hon'ble Pro-Chancellor Dr. Prashant Jain along with the presence of Dr. Pratik Jain, Head of Department, TPIIC, Mr. Rahul Ram Gupta, Campus Director, and Mr. Shri Krishna Choudhary, CAD. It is the tradition of Sage University to acknowledge the work of each and every one where it is necessary.

## Congratulations

Our Student Mr. Mayur Ketke, B.tech - CSE has won the Runner UP Title in Intercollegiate Table Tennis Tournament 2K22

*We wish him Good Luck for his Future Endeavours.*

[www.sageuniversity.in](http://www.sageuniversity.in)

## Victory at SUI @ 2022

Sports often reflect the culture of the countries in which they are played. In many ways, sports define a society.

They show how people can make a living by being athletic, and entertaining other people. They give people ways to test their athletic drills against other people. Most of all, they give people something to focus on and follow that is a sort of release from the stressful chores of everyday life. Sports are an important part of just about every society and country involving everyone, whether they are playing or watching. Sage University Indore appreciates the department of sports for giving rise to endless opportunities and an area for students to extemporize the sports person within them. Sage group congratulates Mr. Mayor Ketke; B-Tech CSE for winning the runner-up title in the Intercollegiate Table Tennis Tournament 2022. We wish him good luck for his future endeavors and intent to bring more such changes in the future. So it is important for a person to know how to work together in a team. Only then you can achieve the desired goal. Sports can bring a change to your day to day routine. Moreover, it can relieve you from stress as your body will experience a change. It gives your mind a boost of enthusiasm and happiness. As a result, it will fill you with energy for the next day. Sage University Indore appreciates the department of sports for giving rise to endless opportunities and an area for students to extemporize the sportsperson within them. Sage group congratulates Mr. Mayor Ketke; B-Tech CSE for winning the runner-up title in the Intercollegiate Table Tennis Tournament 2022. We wish him good luck for his future endeavors and intent to bring more such changes in the future.

## Madhya Pradesh Start-up Conclave @ Indore City

New technologies often create new opportunities. Truly start-ups create an enormous value over mature businesses, inspiring competition, and pushing the economy to evolve. However, not all start-ups succeed. Start-ups create new markets or completely transform old markets by introducing products, services, and ideas that change the world. On 13th May, 2022 at Brilliant Convocations Centre, there was a start-up conclave been conducted in Maga City Indore, our hon'ble Prime Minister Shri Narendra Damodardas Modi ji, has initiated the splendid programme virtually and gave his abundant contribution over eye catching aspects in a view to motivate and inspire the public. And the blasting impact towards the start-up conclave that it was going to be a CPM audience centred event. That means online presence was graced by our respected Prime Minister of India and live spectacular presence was embraced by our chief minister of Madhya Pradesh Shri Shivraj Singh Chouhan ji. This was a completely half day session where several experts and industrialists share their personal views and experiences to avoid the same type of errors what they have already done before and new generation will understand the strategy how to build an empire with a small brick. This event was captured live and telecasted by many news channels and press reporter to reach into the knowledge of normal public from where they can also bring out something innovative and creative for developmental aspects. A large number of new jobs and opportunities are created by entrepreneurship. The increase in the total employment of a country largely depends on the rise of entrepreneurship. They discussed most of the aspects related to how to open a start-up, what process an entrepreneur goes through entirely, what schemes are available for a beginner or for composite traders, etc. and it included much more observable and cognizance. Sage University, Indore has also placed its strong feet on this battlefield. Sage University, Indore has been acquired a centric place for outlook along with its faculty members, IEDC, and students headed by Aditya Pratap Singh (Co-HoD, Mechanical Engineering Department with Dr. Akhilesh Upadhyay (Dean, IET) and Dr. Pratik Jain (Head-TPIIC). This conclave gave an exciting opportunity for students to showcase their start-up ideas and newly made products within the university. Students have displayed what creations they have made through projects or model-making learning and also explained the feature of the products to the general public so that they get to know more about the consumable items which are patented, owned, and created by Sage University, Indore. Entrepreneurship creates a huge number of entry-level jobs that are very much important to turn unskilled jobholders into skilled ones. It also prepares and provides experienced workers to large industries. So, the role of entrepreneurship in creating new job opportunities is huge.

## Sanskar Shivir @ Youth Career Counseling 2022

Career counseling is a domain of counseling that focuses on helping individuals find the right career pathway. In career counseling, the individuals receive guidance from professional counselors that provide expert advice on the potential, Aptitude, motivations, skills, and shortcomings using carefully designed assessment tools. Nowadays it is clearly visible that even the government is laying emphasis on providing compulsory career counseling and guidance to the students at the school level in order to help them chart a proper career path and choose therewith. International Porwad Jain Samajik Mach organized "A Sanskar Shivir" where Dr. Pratik Jain addressed the students by explaining to them the essence of choosing the right direction of yours. While interacting with students he also explained the mantra of receiving success and the power of chasing clarity in spite of confusion. Not only this, but Pratik Jain also explained the relevance of every individual in their personal and social life. With the help of this interaction, SIR clarified the difference between hard work and smart work. Good evening Indore featured the article on a leader who comes up with such a clear and brilliant ideology. We congratulate sir for this achievement and also the Sage University Indore for such a great achievement. In such cases, the students want to pursue higher placements and jobs. Certifications are important aspects for the people to increase the standard of the main degree. The company's deals with people who have clear skills and a high sound of knowledge in the subject they study. Career advisors examine people their strengths and weakness. They guide the students on how to start their careers and be successful.

We congratulate sir for this achievement and also the Sage University Indore for such a great achievement.

## Interview of the student who got the package of 23 lakhs in SAGE University, Bhopal

Interview of the student who got the package of 23 lakhs in SAGE University, Bhopal Effort teaches us the value of patience, perseverance, and dedication, all of which are important attributes. A Bhopal girl, a student of SAGE University, Bhopal has been offered a job offer of Rs 23 lakh per annum package even before completing her studies. She is currently pursuing Engineering in Computer Science from SUB. The student said that she never did coaching, but only self-study. At the same time, updating every moment kept complete faith in herself. According to the student, belief is necessary for success. She has been rewarded with a letter of appreciation from Hon'ble Chief Minister Shri Shivraj Singh Ji Chouhan. Originally from Chhindwara, Moksha Jain's father is a property dealer. Chief Minister Shivraj Singh Chouhan has given her a commendation letter on this achievement. Moksha has been selected by Wal-Mart Company. After which she can get a posting at any one place in Chennai or Bangalore. Happy with the package of Rs 23 lakh, Moksha gave the credit for her success to her parents and teachers. She trained herself continuously, took Internships at many places, and put full emphasis on self-study. Moksha is a final year Computer Science student in the college of The Sage Group. She believes in herself and relies on self-studies. She said that whenever there was any doubt, immediately asked the teachers and her parents are also supportive. The selected students were honored in a program called SAGE CAREER DAY 2022, which was organized on 20th May in the massive auditorium of SAGE University, Bhopal. The students who got jobs in the last year were honored by our state Chief Minister Shri Shivraj Singh Chouhan and our Higher Education Minister Dr. Mohan Yadav. During the program, letters of appreciation were given to about 2200 students. It is the glory of The SAGE Group which is delivering its finest & quality education to its students so that they can reach the maximum peaks in their lives. Our SAGE Group serves its best infrastructure to its students who believe in higher reforms where the successful contribution to be given in the society.

Quality Management tools help employees identify the common problems which are occurring repeatedly and also their root causes. Quality Management tools play a crucial role in improving the quality of products and services. Quality Management tools help organization collect and analyze data for employees to easily understand and interpret information. Quality Management models require extensive planning and collecting relevant information about end-users. Customer feedbacks and expectations need to be carefully monitored and evaluated to deliver superior quality products. Quality Management tools help employees identify the common problems which are occurring repeatedly and also their root causes. Speech Institute of research in technology Department of Mechanical Engineering successfully conducted faculty development programme on quality management tools on 24th May to 26th May. The program was divided in two session.

First session include doctor Devendra Verma Assistant professor IET DAVV Indore; Dr Ajay professor Industrial and production engineering department college of technology Pantnagar and Dr Nagendra Sohani; Assistant professor DAVV IET Indore. Second session includes professor Arvind Patidar association professor industrial and production engineering department College of technology Pantnagar, Mr brijraj Singh birjo and Dr. Bhaskar Pal; professor mechanical engineering department residency University Bangalore. The convener of the FDP was doctor Rupesh Tiwari HOD mechanical engineering Department Sage University Indore and the coordinators work doctor Satyendra Sharma Associate professor as well as Professor Kamlesh Gangrade. The event was successfully conducted under the influence of har authority as well as department of Mechanical Engineering.

**BEST ENGINEERING  
COLLEGE IN  
MADHYA PRADESH**

Education World Rankings 2022-23

The demand for engineers spans the entire world. There are opportunities all across the globe to work in various engineering fields. Whether you would like to change cities or countries, a career in engineering can help you do that while maintaining a high salary and continuing to grow professionally. The engineering sector affects each one of us. It's the reason why the light comes on when we flip up the electrical switch and what keeps the cost of our favorite products so low. The engineering sector, though sizeable and diverse, is also very competitive and demands a high level of study. Learn exactly what a career in Engineering can do for you and why an internship abroad is an ideal way to boost your career in this competitive industry by joining the Sage Group. . Industrial, mechanical, civil, chemical, manufacturing, and biomedical are all different and exciting areas within engineering.

Each of these sectors offers a lot of variety and demands different studies, so it's important to decide early on which area you want to focus on. You can do anything from developing planet-saving technologies in the renewable energy sector to helping create a new satellite. Central India's biggest University and Madhya Pradesh Topmost college; Sage University Indore is offering you the Best Engineering college. Here we are offering you a bucket filled with opportunities, placements, learning, and skills you require to face the competitive world. To get the advantage and advanced learning why not begin your success journey by taking the first step towards success.

## SAGE Entrance Exam

Central India's leading SAGE University Indore & Bhopal has conducted its entrance exam for all over India students on 29th & 30th May 2022. SAGE University, the biggest private university in Central India, has begun the admission process for the 2022-23 academic year. Passing the Sage University's SAGE Entrance Exam, which was held on May 29th and 30th, is required for admission. In addition, the student must have received at least 60% of the marks in the 12th grade. Scholarships have also been made available to deserving students on a merit-based basis. Many major media outlets and prestigious organizations have recognized Sage University for its outstanding academics, placement, and educational innovation. SAGE University Indore and Bhopal have established themselves as two of the country's best private institutions. Sage University has partnered with various national and international educational and training organizations to provide students with practical, industry-ready learning and experience. The University's Training and Placement Department prepares students for a better career by matching them to industry needs. The institution has partnered with world-renowned business schools such as Harvard Business Online, which students, alumni, and professors may access. SAGE University has been recognized by ASSOCHAM, the country's respected institution, for its outstanding achievements in academic excellence and research. The University offers graduate and post-graduate programs in Advanced Computing, Agriculture, Arts, and Humanities, Architecture, Commerce, Design, Journalism and Mass Communication, Management, Performing Arts, Law and Legal Studies, Pharmaceutical Sciences, Biological Science, Computer Applications, Engineering and Technology, and Language Admission. Engineer Sanjeev Agrawal, the respected Chancellor of Sage University, stated that the Sage Group is committed to fulfilling the obligation of a new direction and improved education system in the area of education in Central India through the curriculum inspired by the new education policy.

“  
**Be determined  
to ace perfection  
and you will  
never look back.**  
”

**Er Sanjeev Agrawal**  
Chancellor, SAGE University

## FDP @ NBA and NAAC

**Accreditation is a formal recognition of an educational institution or a degree program by an external authorized agency based on some well-defined and documented criteria and standards.**

To get accredited, the program or institution need to meet the norms and standard prescribed by the regulator from time to time. The external verification helps the student to get recognized by stakeholders for the quality and relevance of the education they completed. Differentiating between NBA and NAAC NBA is more specific in that it accredited program instead of the whole institution whereas NAAC is an autonomous institution established by UGC to assess the performance evaluation of an institution. To understand the difference between the two and their relevance to SIRT, the Department of Computer Science Engineering and Information Technology organized a faculty development program on NBA and NAAC on the 10th of May which continued till the 17th of May.

A seven-day workshop was successfully conducted to impart the new learning to all faculty members of CSE and IT. Dr. Hare Ram Shah; HOD CSE IT, Dr. R.P. Mahajan; Professor CSE IT, Dr. Abhay Kothari, Dr. Manoj Kumar Rawat, and Dr. Harish Patidar were the speakers who delivered their valuable knowledge to seekers. We congratulate the delegates of Sage University Indore and the entire Department of CSEIT for administering such a valuable program.

## Good News SUI Copyright

The SAGE Group is a leading private group moving on its way, helping and creating a place to live in. Our Sage University, Indore has published and signed up for copyright on "Course file of Electronic Devices and Circuits" & "Course file of EMETHM05T (Refrigeration and Air Conditioning)" with the assistance of its faculty members. Copyright is important as it helps to protect the value of an author/ academic/ researcher's work, by giving the originator of the work the ability to protect it from unlicensed or uncredited usage. This leads to the prevention of their work being copied to the degree where they cannot sell it effectively or receive credit for it. University appreciated the hardships of its staff and faculty members who have devoted their time and efforts towards the successful completion of this amazing project. Copyrights grant the owner the exclusive right to reproduce and distribute copies of the work, prepare derivative works, and perform, display, and broadcast the work publicly. Copyright ownership entitles the owner to authorize others to exercise any of these exclusive rights as well. Our university is looking for more advanced ideas or innovations from faculty, staff, and student fraternity to embrace the knowledgeable outcomes.

## Yoga se Hoga @ SUI

Yoga is the essence of life. It brings together physical and mental disciplines to achieve a peaceful body and mind. The art of practicing yoga helps in controlling an individual's mind, body and soul. It helps manage stress and anxiety and keeps us relaxing. It also helps in increasing flexibility, muscle strength and body tone. It improves respiration, energy, and vitality. Practicing yoga might seem like just stretching, but it can do much more for your body from the way you feel, look and move. Sage University, Indore often conducts such welfare programs for its students, faculty, and staff members as well. This month, the first Saturday was refreshed and reenergized by the administrators along with the faculty and staff members by doing or attending a cheerful Yoga, Meditation, and Zumba session. The session was headed by an international yoga instructor Mrs. Sarika Sharma. She has led us into a peaceful and calm world which intensified our soul and spirit. We must be thankful to the management for the well planned conduction of such events, to the expert who has given her selfless job towards the betterment and in right direction for all and but obvious, our most enthusiastic participants who have played an iconic role during the whole session.

Strength, Courage and Compassion are synonyms of your motherhood

## Cherishing **Mother's Day** to worldly Superwomen

Mothers are highly responsible women. They certainly play a very important role in the upbringing of a child. Most noteworthy, Mothers play a huge role in determining a child's attitude. The moral values taught by Mother probably play a huge role. Individuals often remember their mother's values until old age. Hence, the mother is responsible for the well-being of society. The future of society in a large way is the result of a mother's teaching. Mother is a word that fills everyone with emotions. A Mother is certainly the most important human being in everyone's life. A mother's love for her child certainly cannot be compared with anything. Her level of forgiveness is unmatched. A Mother is capable of forgiving any wrongdoing. Mother is the most important woman in everyone's life. A mother sacrifices her happiness for her child. No one else can care for their kids the way a mother does. A Mother is great and does not need anyone like me explaining that. Our Executive Directors, The SAGE Group along with their teams celebrated Mother's Day in a very enthusiastic and passionate way where everybody was supposed to pay a tribute to their hard-working mother, the Wonder women.

## From the desk of Hon'ble CMD, **The SAGE Group**

From the desk of Hon'ble CMD, The SAGE Group "MOTHERS ARE NOT MERE MOTHERS; THEY ARE THE BIGGEST TEACHERS." When you were a student, have you gone through this experience during night studies? There's a point at which you feel very sleepy. Remember how your mother sat next to you, caressed your head, and somehow manages to keep you stay awake even for a few minutes beyond that point. Then you no longer felt sleepy. In fact, you felt so fresh that you find it difficult to sleep after that. It's an Existential law. Life creates an imaginary finishing line on your path. This is life's way of differentiating mediocrity from the rest. Every mediocre accepts the imaginary finishing line as the finishing line and stops at it. The champions go beyond this imaginary line. Remember, a paradise awaits us with open arms just beyond the imaginary finishing line! Hold on a little longer; do not accept what seems to be the finishing line. Life sets a trap for all of us on every path we tread. This is her way of discriminating the 'also-rans' from the champions. "The champion knows that if he can just go beyond this imaginary finishing line, then there are no more finishing lines. If you are a champion today, it was your mother's first contribution that made you so. On behalf of The SAGE Group, CMD Sir along with his entire family, WISH YOU ALL A HAPPY MOTHER'S DAY. My best wishes to all mothers from the entire SAGE group. Sanjeev Agrawal Sage group

**SAGE** SUMMER SCHOOL

A LIFETIME OPPORTUNITY TO  
**UPSKILL YOURSELF**

Science & Technology

Management & Finance

Skill Enhancement

Life Enrichment

## Beat the Heat @ **SSS 22**

A lifetime opportunity to upskill yourself. After the splashing success of SAGE winter and summer school. Once again, we are here to present the most unique in Central India that promotes intercultural opportunities to students. It has kept the root brick of SSS 22 on 16th May by organizing an Inaugural Ceremony where the presence was made divine by the Chief Guest Prof. Sanjeev Sharma, Vice-Chancellor, MGCU, Bihar and the Guest of Honour Prof. Amiya Kumar Rath, Advisor, NAAC, Patron Ms. Sakshi Agrawal, Executive Director, The SAGE Group and our Chief Patron Er. Sanjeev Agrawal, Chancellor, Sage University. The summer school inculcates a value system and evolves intercultural exchanges among students from different regions. This summer school sets certain fields which will focus on the betterment of students and match society's needs such as Science & Technology, Management & Finance, Skill Enhancement, and Life Enrichment. It includes a number of topics that will benefit students in one or the other ways such as Vedic Mathematics, Psychological Shifts In Youth, Life Enrichment And Development With Law, Intellectual Property Rights, Business Analysis Using Advanced Excel, Public Speaking, And Personality Development, Income Tax And Goods And Service Tax Filing Procedure, Electronic Circuit Design Simulation, And Testing., Build Your Own Website Using Reactjs And MongoDB, Python Fundamentals For Beginners. We must be thankful to our Executive Director whose vision led us toward the developmental indication in unique pathways always.
