## THE DAWN OF AN ERA: THE GRAND INAUGURATION OF THE APOLLO SAGE HOSPITAL

"With your determination and perseverance, everything could be achieved." The grand inauguration of the Apollo SAGE hospital on the occasion of Foundation Day was a once-in-a-lifetime event to be witnessed. Er. Sanjeev Agrawal, Hon'ble CMD Sir's vision, Chairwoman Mrs. Kiran Agrawal's aspirations, and the SAGE Group's executive directors, Ms. Shivani Agrawal and Ms. Sakshi Agrawal's aspirations all came true. At the spectacular inauguration ceremony, many dignitaries, notably Shri Shivraj Singh Chauhan, Hon'ble Chief Minister of Madhya Pradesh, graced the inauguration programme. In his eloquent message, the Chief Minister acknowledged that the hospital will serve the people of central India with the goal of providing the best medical services. The Sage Group is known for quality and reliability in a number of industries, including education, construction, social work, and electric infrastructure - A conglomeration with the quickest rate of growth in Central India. We are motivated to contribute to the healthcare sector with the goal of supplying far more modern healthcare facilities that are supported by technology for a healthy society. With the consistent hard work and diligence SAGE is sprawling its wing since last four decades. The Apollo SAGE Hospital in collaboration with Apollo Healthcare is set in the lovely city of Bhopal to embark another endeavour to offer the best medical services at individual and corporate level. The ambiance and infrastructure of the hospital is designed in such a way where one care have lovely feeling. Apollo Hospitals offers everything from everyday wellness and preventative healthcare to cutting-edge life-saving procedures and diagnostic services. Our newest endeavour in the medical and healthcare sectors, Apollo SAGE Hospital, aims to offer the top medical services. We serve 350+ beds (100+ critical) throughout more than 25 healthcare facilities.

# GRANDEUR BIRTHDAY CELEBRATION OF HON'BLE CHANCELLOR SIR

"A new beginning." Life's newest story is waiting to be written. There are new questions to ponder, welcome, and adore. In this year of joy and self-discovery, there are answers to be found and then lived. The birthday of our Hon'ble Chancellor Sir, the foundation day of the SAGE group, which is celebrated with full passion and excitement across all the verticals, falls on January 4, 2023, To make it more cherishable day of the year, this year Apollo SAGE Hospital was launched. Our hon'ble Chancellor Sir is a visionary more whose eyes are indeed fixed on the goal, and he exerts every effort to create a method to reach it. He is a visionary leader who is also incredibly focused. He motivates everyone and ignites excitement for the idea by exercising self-control and discipline. Others are touched by his energy and intensity, which makes them live with the same enthusiasm. His mission is to foster interdisciplinary intellectual dialogue and harvest ground breathing knowledge through top-notch teaching, research, and extension activities in order to produce a new generation of students who will lead society with leadership, vision, and direction. He is a great leader who strives for excellence in everything he does. There is nothing you cannot conquer with your tenacity and dedication.

## FROM THE EXECUTIVE DIRECTOR'S DESK : EPITOME OF BRILLIANCE

Our esteemed ED mam is a strong proponent of "vision power." Her goals are lofty yet doable and reasonable. Her fight to make the vision a reality is so fierce, and all of her efforts are directed towards realising the university's purpose and goal. She is closely watched as she works to strengthen the university's status and act as a real leader who unites everyone. She is an outstanding and an inspiration to today's youngsters entrepreneur thanks to her dedication to education and constant innovation in the changing technology world. In the year as we observe excellence in the academics, she is acts us a guiding light to the pathway of success. Ms. Sakshi Agrawal in the simplest way possible gets the hardest things done and that is a quality which makes her different other business leaders.

From the desk of the Pro-Chancellor

## STRIVE FOR EXCELLENCE, NOT PERFECTION

"If you are going to achieve excellence in big things, you develop the habit in little matters." "Excellence is not an exception; it is a prevailing attitude." Excellence is about being the best and striving to be better with an eye to delivering quality goods and services. People are not born with excellence. They cultivate it over a period of time through hard work, wise work, and smart work. It emerges from continuous improvement over the past few years. It is a corollary of passion and performance. Our eminent provost, Dr. Prashant Jain, is an "epistemophile" who continually seeks to learn new things, explores opportunities in the field of education and provides a platform at SAGE for significant societal impact. Hon'ble Pro-Chancellor Sir, unlike most people, you are always improving your awareness of the world and its secrets or obtaining genuine mastery of a challenging subject, which is a trait of genius. Excellence differentiates extraordinary people from ordinary people. Dr. Prashant Jain is someone who strives for excellence and has longevity in his endeavors. It is both the yardstick and the benchmark. When you benchmark against other achievers, you tend to improve and grow. He has the willpower to make 2023 the year of excellence, and we have no doubt that he will do so soon.

## Dr. Pratik Jain takes a workshop on Corporate Etiquette

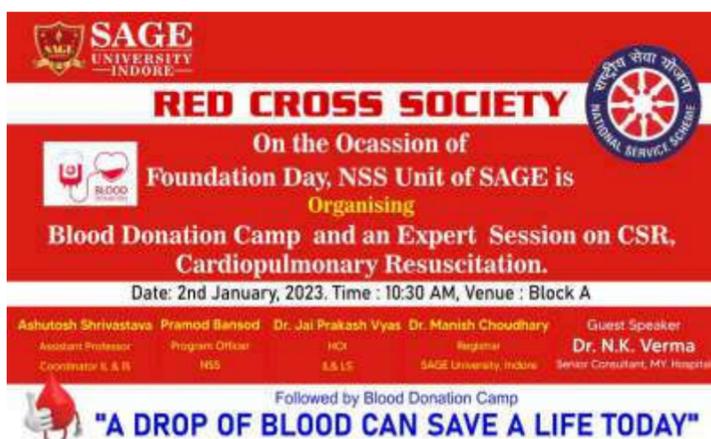

An effective communication skills are essential to allow others and yourself to understand information more accurately and quickly. "Good manners will open doors that the best education cannot." Learning corporate etiquette means knowing how to read social cues and communicate effectively. On January 14th, 2023, the administration department host a corporate etiquette workshop at the Einstein Auditorium. The speaker of the event, Dr. Pratik Jain, enriched with corporate etiquettes and manners to improve interaction through communication skills. He highlighted how important communication is, in succeeding in your career and availing better opportunities. You need to know what you want and how you are going to attain it. Being an excellent communicator can help propel your career. The speaker also educated the audience on various aspects of etiquette and courtesies. The session further discussed that communication drives workplace success. Although the detriments of poorly communicating with others may not be apparent in the short term, they have a crippling effect on the workplace in the long term. Dr. Pratik Jain also highlighted that strong communication skills are beneficial in all aspects of life, from professional to personal, and everything in between. Mr. Brajesh Sadh, COE, and HR Executive Sandeep Mandlia organised the event.

## YOUTH DAY CELEBRATION @ SUI

"Education is the manifestation of the perfection already in man." Swami Vivekananda believed that education should be used to bring out the best in an individual. On the occasion of Youth Day, Law and Legal Studies at Sage University, Indore, organised a speech competition on the topic "Thoughts of Vivekananda in Present Perception," in which students of Law and Legal Studies competed and performed admirably. Prof. Savita Bhatnagar organised the competition, which was directed by respected HOI Prof. Dr. Jay Prakash Vyas and HOD Dr. Niti Nipuna Saxena, and all faculty members from the Law Department were present. National Youth Day is a special day dedicated to the youth. The day intends to promote understanding, appreciation, and responsibility for young people. It promotes social engagement and supports education through activities, events, and celebrations. Swami Vivekananda urged the youth to use their energies and time to develop their country positively. India celebrates National Youth Day to remember Swami Vivekananda's birth, opening opportunities for youths to make impactful decisions. National Youth Day is an annual day to celebrate youth, and it allows for celebrating and raising awareness about the importance of their role in society and how they can help shape it. The day also provides young people with a platform to express themselves and achieve their goals. Moreover, the role of youth in nation-building plays an important role in the country's development. SAGE University, Indore, extended warm wishes to the future of the nation on the occasion of National Youth Day. We make students become the best version of themselves through education.

## BLOOD DONATION CAMP @ SUI

Most often we underestimate the power of a touch, a smile, a kind word, a listening ear, an honest compliment, or the smallest act of caring, all of which have the potential to turn a life around. As part of an initiative, a blood donation camp along with a CSR session was organised for Foundation Day on January 2, 2023, in association with the Red Cross Society. SAGE University, Indore, on the occasion of its Foundation Day program, organised a blood donation camp at the university campus. The program was organised to inculcate the spirit of donation among everyone. The faculty, along with students, participated in the blood donation and pledged to donate blood regularly in order to contribute to society. "Change will not come if we wait for some other person or some other time." We are the ones we've been waiting for. We are the change that we seek. SAGE University, Indore, firmly believes in bringing about change and continuously makes efforts to contribute to society. Dr. N.K. Verma, senior consultant at the M.Y. Hospital, spoke at the session, which was attended by dignitaries.

## A WIN-WIN SITUATION @ GOLDEN PEACOCK AWARDS

If you believe in yourself, have dedication and pride, and never quit, you'll be a winner. The price of the victory is high, but so are the rewards. The Golden Peacock Awards are presented quarterly by The SAGE Group to honour the hardworking and best-performing excellence of professionals in the various verticals of The SAGE Group. The legacy of celebrating the hardworking core members continues, wherein the hon'ble CMD sir congratulates and awards the outstanding core members for achieving the targets and contributing exceedingly well to the tasks and departments assigned. The award for the quarter of September–December was recently presented, and almost every vertical marked its efforts by winning the prestigious award. Success is more about routine than moments of chance. From SUI, the winner was the respected registrar, Dr. Manish Chaudhary, and the winners from the other verticals include Dr. Sarvesh Shukla, group director; Ms. Neelam Chaudhary, vice principal; Bhavna Shrivastav, vice principal; SAGE International School, Dr. Dharmesh Jain, director of SIRT, and Dr. Vikas Pagey director of SIRT. According to Winston Churchill, "Success is the ability to go from failure to failure without losing your enthusiasm." Many people who want to be successful think that success happens accidentally, and they lose connection with the fact that it takes individual consistency and persistence to reach goals. Every successful person is passionate about their particular craft, field, or talent. They don't do it simply because of the work. Rather, they do it because of the love they have for it and the joy it provides. Because of this, they make sure that their daily habits are centred on activities that will bring out the best in them—and drive them further towards success in the process. All of them guide us in our constant dedication and commitment to work and are the reasons that lead the organisation to impact the lives of young minds while contributing to the education sector.

## UNDERSTANDING TACTICS OF BUSINESS @ ENTREPRENEURSHIP DEVELOPMENT PROGRAM

The Department of Mechanical Engineering (IET), SAGE University, Indore, organised an Entrepreneurship Awareness Program on Tuesday, January 17, 2023, sponsored by MSME-DFO, Indore. The goal of this programme was to assist students and faculty members in improving their entrepreneurship knowledge and leadership skills for the benefit of their institutions and themselves. The programme coordinators were Mr. Gaurav Goyal and Dr. Aditya Pratap Singh. The Entrepreneurship Awareness Program is an event where we inform entrepreneurs about services and entrepreneurship. Discussions on business ideas, schemes, and incentives offered by different speakers to reach a larger number of people are frequently conducted at the university. The development of unique training modules with capacity building and client preparation for business development includes sessions on empowerment, business, exposure visits, and interaction with successful entrepreneurs, government officials, and support agencies. provides audiences with services and networking opportunities with support agencies.

## FACULTY DEVELOPMENT PROGRAM @ IAC,SUI

Institute of Advance Computing

Organizing

Two week Faculty Development Program

on

Accreditation and Outcome Based Learning  
(Course File Designing Approach)

In Association with ACM Chapter

Date : 18th to 30th Jan. 2023

Resource Persons

<p>TOPIC Introduction to accreditation</p>  <p>Dr. Lalji Prasad HOI, IAC, SUI</p>	<p>TOPIC Vision, Mission and PEOs</p>  <p>Dr. Manoj Ramaiya HOD, CSE (Core), IAC, SUI</p>	<p>TOPIC Course Outcomes &amp; Mapping with POs and PSOs</p>  <p>Dr. Hemang Shrivastava HOD, CSE (Specialization), IAC, SUI</p>	<p>TOPIC Pos and PSOs</p>  <p>Dr. Shweta Agrawal Prof. IAC, SUI</p>	<p>TOPIC Curriculum structure, Curriculum gap &amp; Content beyond syllabus</p>  <p>Dr. Vijay Bhat Prof. IAC, SUI</p>
<p>TOPIC Teaching Learning Processes</p>  <p>Dr. Kuntal Barua Prof. IAC, SUI</p>	<p>TOPIC First Year Academics</p>  <p>Dr. Meenaskhi Joshi Prof. IAC, SUI</p>	<p>TOPIC Outcome based Education</p>  <p>Dr. Pallavi Pahadia Prof. IAC, SUI</p>	<p>TOPIC Attainment of POs, PSOs and Cos</p>  <p>Prof. Virendra Singh Prof. IAC, SUI</p>	

The Institute of Advance Computing at SAGE University Indore organised a two-week faculty development programme on "Accreditation and Outcome-based Learning (Course File Designing Approach)" in association with the ACM Chapter from January 18th to January 30th, 2023. Faculties, including HOI and HODs, took an active role in providing other members with opportunities to learn something new and enhance pedagogical skills. The HOI, IAC, Dr. Lalji Prasad, spoke on the topic "Introduction to Accreditation," and other speakers at the event also included HOD, Dr. Manoj Ramaiya, and HOD, Dr. Hemang Shrivastav. The programme aimed to improve the academic and intellectual environment in the institutions by giving faculty members ample opportunities to conduct research and attend seminars, conferences, and workshops. Participation in such a programme enables faculty members to update their research and pedagogical skills. And organising a faculty training programme provides all of them with a common platform where they can integrate with other faculty members and higher management officials for collaboration. Doing this changes the mindset of the teachers and faculty members, which is beneficial for the institution to achieve its goals and objectives.

The development of unique training modules with capacity building and client preparation for business development includes sessions on empowerment, business, exposure visits, and interaction with successful entrepreneurs, government officials, and support agencies. provides audiences with services and networking opportunities with support agencies.

## STUDENT DEVELOPMENT PROGRAM @ INSTITUTE OF COMPUTER APPLICATION

Under the auspices of the IEEE Student Branch, the Institute of Computer Application hosted a three-day Student Development Program for MCA I and II year students. The guest of honour for the programme was rock star Chintan Bakiwala, who inspired the students with his own life story of becoming a successful rock star while his performance made them enjoy the programme too. The first day was dedicated to robotics and IEEE student project proposals, and the guest speaker was Dr. Vijayalaxmi Biradar, IQAC Director at Kalinga University in Raipur and Senior Member of IEEE, The second speaker was Dr. Pratik Jain, TPIIC Head, who guided the students through a much-buzzed topic, "Entrepreneurship," and discussed how to become a successful entrepreneurial thinker and decision-maker. The program's third day was dedicated to training and placement, Mr. Naveen Gurjar, TPIIC's Senior Manager of Corporate Relations, educated the students on how to deal with challenges during the competitive process of finding a job. The magnificent event took place at the Kalpavriksha Auditorium and the convenor for the event was Dr. Pankaj Dashore, HOI, while the Coordinators include Dr. Sanjay Dubey and Dr. Neha Bharani.

Department of Civil Engineering in association with Student Chapter of IGBC celebrated 5th Edition of Harit Prem Bharat Mahotsav 2023, and organised a Seminar on "Carbon Credits and Community Based Project" on 23rd, January, 2023. The program was scheduled for the students of IET, Architecture and Interior Design. The speaker at the event was Manager at Infinite Solutions Mr. Anand Sharma. Seminars hold great importance in life of a student. They are platforms not only to learn new aspects, others perspectives and latest information, but also a good way of networking. The students were enriched with the information from attending the program first being confidence then networking, information and motivation. The Advisor of the program was Dean Engineering Dr. Akhilesh Upadhyay while the Coordinator was Prof. Prachi Gour and the program was convened by HOD Prof. Shreyans K Jain.
